Wendy Gibble

Rare Plant Care & Conservation 10 am

UW's Rare Care is dedicated to conserving native plant species that are endangered, rare or threatened.

Lorene Edwards Forkner

Dressing Your Garden with Style and Personality 11 am

A two-time gold-medal winner at the Northwest Flower & Garden Show, Lorene considers garden-making to be a unique form of self-expression. She will discuss ways to infuse your garden with distinctive detail and personal wit to create a space that is unique to you.

Wendy Welch

Green Container Gardening 1 pm

Wendy's no nonsense approach will inspire and empower you to create container gardens that are beautiful, long lasting and very green.

Goldie Caughlan

Eat Seasonally and Support Local Farmers 2 pm

Goldie has been PCC's nutrition educator for 25 years, founder of their cooking school (PCC Cooks), which is also celebrating its 25th year! She'll address the health and \$\$ benefits of not only homegrown foods, but of eating more seasonally, and of supporting local and regional farmers as well.

Judy Porterfield

Master Gardener Program 3 pm

Ever thought about being a Master Gardener? Judy will tell you the what, where and how to be a Master Gardener.

Pamela Harlow

Botanica Plant Propagation and Sales

Botanica offers both classics and unusual or rare plants, grown primarily by seed but also by cuttings or divisions.

Box lunches will be available for sale.

Donation: \$5/person
