

# SEWARD PARK PLAYGROUND Improvement Foundation

## Build a new playground at Seward Park!

The greater Seward Park neighborhood has teamed up with the Seattle Department of Neighborhoods and the Seattle Parks and Recreation Department to help design and build a new playground at Seward Park.

## Get involved!

We need to hear from you about what will make the new playground great. Help us as we work with the professional design team making plans for the new playground. We need to hear from you about these and other important playground details:

- What features should the playground include?
- How big should a new playground be?
- What should the new playground look like?
- Where should the new playground be?

With your help and the City of Seattle's support, we'll be able to design and build a great playground that could be ready by the end of 2009.

## Make your voice heard!

Our first community meeting is coming up - date TBD. The designers will be there to hear what you want in a new playground. In the meantime, check out the website below for more information and let us know your thoughts through email. Check back often for the latest news on a great new playground for Seward Park.
